

## SOCIETY OF EURO-AMERICAN MEDICAL PHYSICISTS

Dear colleagues and friends,

The Society of Euro-American Medical Physicists (SEAMP, <http://seamp.org>) cordially invites you to our symposium/reception "Modern Technology in Radiation Oncology for Veterans." This event will be held during the annual AAPM meeting in San Antonio, TX Convention Center Room 220 on July 14, 2019 starting at 6:00 p.m.

We anticipate exciting appearance and presentations of Professor Jatinder Palta, Ph.D., FAAPM, FASTRO, FACR, Chief Physicist of National Radiation Oncology Program for Veterans Health Affairs, Chair of Medical Physics of Virginia Commonwealth University, chief Medical Physicist of various VA Medical Centers, top managers of leading companies, outstanding researchers, clinical physicists and industrial expert from different countries. All attendants would be happy to listen to their stories, debates and new ideas in the informal friendly environment of the SEAMP reception. This event is expected to be interesting, fascinating and bright.

At SEAMP reception you will enjoy free delicious food and warm hospitality. In relaxing informal amicable environment you will meet the old lovely friends and make new ones. This event is expected to be interesting, fascinating and bright. We look forward to meeting you.

Best regards,

Victor Gurvich, Ph.D., DABR  
President of SEAMP  
Chief Physicist of VA Pittsburgh Medical Center
