

SOCIETY OF EURO-AMERICAN MEDICAL PHYSICISTS

The symposium/reception devoted to the Medical Physicists famous Point/Counterpoint series was organized by SEAMP and took place in Denver Colorado Convention Center on July 31, 2017. Point/Counterpoint series that for already twenty years starts each issue of Medical Physics journal became not only a nice tradition but the symbol of this exceptional professional edition. Point/Counterpoint debates inspired many researchers and developers to prove their ideas and create cutting edge technologies, equipment and software that are used ubiquitously.

Prof. Colin Orton, Ex-President of AAPM and IOMP, former Medical Physics journal editor, and present mediator of Point/Counterpoint as well as many Point/Counterpoint participants, outstanding researchers, clinical physicists and industrial expert from different countries, top managers and developers of world leading sponsoring companies working in the radiation medicine field presented their achievements, stories and new ideas in the informal friendly environment of the SEAMP reception. All participants enjoyed free delicious food and warm hospitality. In relaxing informal amicable environment we met the old lovely friends and make new ones. As it was expected, this event proved to be interesting, fascinating and bright.
